Music

Cooking

EDUCATION

- **Engineering degree in web engineering and mobile computing (IWIM)**, ENSIAS 2020 – 2023, Rabat, Morocco
- **Preparatory classes for engineering schools - Mathematics Physics (MP)**, Ibn Tahir High School 2018 – 2020, Errachidia, Morocco
- **Baccalaureate in mathematical sciences A French option**, SIJILMASSA High School 2017 – 2018, Errachidia, Morocco

PROFESSIONAL EXPERIENCE

Software Engineer | ERP/CRM systems management and digital development

10/2023 – Present

Ixir Factory

- Full functional and technical ownership of Dolibarr ERP: needs gathering, process analysis, customization, and validation.
- Design and customization of Dolibarr ERP modules tailored to business requirements:
 - **Supply Chain**: inventory and logistics coordination
 - **Production**: workflow tracking and manufacturing management
 - **Purchasing**: supplier procurement and order control
 - **CRM**: client management, invoicing, delivery tracking
 - **Finance**: payment handling and bank reconciliation
- Integration of two Shopify websites (local and international) with ERP for real-time synchronization of orders and stock.
- Deployment of a WhatsApp-based chatbot for live interaction and order management linked to the ERP.
- Collaboration with development teams to ensure alignment between business needs and technical solutions.

Final Year Internship | Real-time public transport schedule prediction platform

02/2023 – 08/2023

Technology & Telecom

- Development of a Flutter mobile/web platform for real-time bus schedule prediction via REST API and Redis cache.
- **Tools**: Flutter web/mobile, Dart, REST API, Swagger, Node.js, JavaScript, HTML5, MySQL, Redis, UML, GitLab, Figma

2nd Year Internship | SaaS web application for language centers management | ERP/CRM application optimization (Dolibarr)

07/2022 – 09/2022

REVONTIC Technologies

- Creation of a SaaS application for language centers management and Dolibarr ERP optimization for improved customer management.
- **Tools**: Laravel, PHP, HTML, CSS, Bootstrap, MySQL, Merise

1st Year Internship | Stock management mobile application

08/2021 – 09/2021

Ilef Info Services

- Development of a Flutter mobile application for stock management with real-time Firebase synchronization.
- **Tools**: Flutter, Dart, Firebase, UML

ACADEMIC PROJECTS

Spring Boot & React Project | D2C web platform

📅 January – January 2023

- **Tools:** Spring Boot, Spring Data, REST API, React, MySQL, UML, Java, HTML5, CSS
-

Data & AI Project | Credit risk classification

📅 December 2023

- **Tools:** Decision Tree, Python, Jupyter, Google Colab, Flask, HTML, CSS
-

PFA 2 | Waste monitoring system

📅 May 2022

- **IoT Equipment:** Arduino UNO, Ultrasonic Sensor, ESP-01 WiFi Module
 - **Algorithm:** Decision Tree
 - **Tools:** Android Studio, Java, Firebase, Google Cloud Platform, Jupyter Notebook, UML
-

JEE Project | Web application for promoting moroccan cooperatives

📅 January 2022

- **Tools:** JEE, CSS, HTML, MySQL, UML
-

PFA 1 | Task management web application

📅 June 2021

- **Tools:** PHP, CSS, HTML, JS, Bootstrap, MySQL, Merise
-
